

# Level 1 MLA and MLT

## Training Course and Exam Review

May 4-8, 2026 (Register by April 22)

The Level 1 MLA and MLT course will help prepare the attendee for either the Level 1 Machine Lubricant Analyst (MLA1) and/or Machinery Lubrication Technician (MLT1) certification exams.

### This course teaches candidates:

- Maintenance Strategies
- Lubrication Theory and Fundamentals
- Lubricant Selection
- Lubricant Application
- Lube Storage and Management
- Lube Condition Control
- Oil Sampling
- Lubricant Health Monitoring
- Wear Debris Monitoring and Analysis
- Preventative and Predictive Maintenance

**MLA 1:** Candidates must have at least 12 months experience in the field of lubricant-analysis-based machinery condition monitoring. This class meets the 24 hours formal training requirement.

**MLT 1:** Candidates must have at least two years education (post-secondary) or on-the-job training in one or more of the following fields: machine lubrication, engineering, mechanical maintenance, and/or maintenance trades.

### Class Attendees Receive:

- 1) A color, bound book of materials covering the body of knowledge
- 2) Electronic Flash card study aid\*
- 3) Practice Exams\*

*\*Available electronically upon receipt of class payment*

**NOTE:** If you plan on taking either certification exam, please remember to register for the exam(s) on ICML's website at least 2 weeks prior to the start of the course.

Includes HANDS-ON Exercises in a Working Lubricant Analysis Lab!

All training occurs at York College's J.D. Brown Center at Kings Mill Depot  
410 Kings Mill Road, York, Pennsylvania
